

AirBorn, Inc.  
Product Technical Bulletin

Bonding Material

AirBorn provides W and R series right-angle plug connectors and backseal applications in either of two bonding agents, Eccobond A-316 or Tra-Bond 789-3. Both are high quality, moisture resistant adhesives.

Tra-Bond 789-3, a National Starch and Chemical product, and Eccobond A-316, an Emerson and Cuming product, are both approved for use by the Defense Supply Center – Columbus (DSCC) for MIL-DTL-55302 product. These materials have high resistance to fungus, outgassing, humidity, salt spray, heat and harsh chemicals. They meet all appropriate test requirements of MIL-DTL-55302.
