AirBorn’s verSI open-pin field product line is designed to meet the requirements for high-speed/signal integrity applications while delivering the reliability customers expect from AirBorn. The verSI product family affords flexibility in design by offering vertical board-mount, right-angle board-mount, cable I/O, and flex circuit mounting with 40 to 500 contacts. Vertical board-mount plugs and mating vertical receptacles also support board-to-board stacking applications. Boardspacing ranges from 8mm to 25mm. EMI hoods and mounting tabs allow for worry-free mating/un-mating and best-in-class durability.

The AirBorn verSI offers several board termination types including paste-in-hole, thru-hole, and compliant pin pressfit technology, which eliminates the need for costly X-ray inspection.

VSX - FLEXIBLE CIRCUIT JUMPER ASSEMBLY

VSX flexible circuit jumpers come in standard lengths and wiring configurations, but custom specifications can be requested. Pitch: 1.27 mm.

FEATURES

verSI connectors feature low mating force/high-reliability contact system with four points of contact. The open-pin field design allows for flexibility in termination schemes. Single-ended, differential pair, power, and ground are all available in one connector design.

MATERIALS & FINISHES

- Socket Contact: BeCu per ASTM B194
- Pin Contacts: Phos bronze per ASTM B103 or per BeCu ASTM B768 (press-fit contact)
- Contact Finish: Localized gold finish per ASTM B488 over nickel per ASTM B689 Type I
- Molded Insulators: Glass-filled liquid crystal polymer (LCP) per ASTM D5138
- Hardware: Stainless steel per ASTM A582/A582M, or ASTM A320; passivated per ASTM A967, SAE AMS-QQ-P-35

PERFORMANCE

- Contact Rating: 2 amperes maximum
- Operating Temperature: -55° to +125° C
- Min. Contact Wipe: 1.27 mm (0.050")
- Contact Normal Force: 35-40 grams
- Max. Recommended Operating Voltage: 200 V, RMS, 60 Hz
- Insulation Resistance: 5,000 megaohms minimum @ 500 VDC
- Durability: 2,500 connector mating cycles
- Sinusoidal Vibration: 20 g (EIA-364-28, condition IV)
- Shock: 50 g (EIA-364-27, condition E)
